

Store Your Data

Store your files on a server of your choosing:

- ✓ On your Raspberry Pi, NAS or home server
- ✓ Rent a server or rack space
- ✓ Choose a ownCloud provider

Store data on your ownCloud server, keep it where it is or safely encrypt it on external storage like Dropbox, SWIFT, FTP, S3, WebDAV and more. Your choice!

Download owncloud from owncloud.org/install

Find providers on owncloud.org/providers

Find documentation on doc.owncloud.org

Access Your Data

Access your ownCloud wherever you are:

- ✓ Easy to use web interface
- ✓ Mobile Android, iOS clients
- ✓ Desktop clients for Windows, Mac and Linux
- ✓ Many third-party applications supporting ownCloud

Get the clients on owncloud.org/install

Find integration tools on owncloud.org/3rdparty
